

Decision on plastic ban soon: CM

Mumbai: Further restrictions on the use of plastic could soon be imposed in the state. CM Prithviraj Chavan said a proposal to ban the use of plastic would be taken soon.

The environment department proposed to extend the ambit of the ban to include thermocol and other plastic items. On World Environment Day on Tuesday, Chavan supported the idea of a ban on plastic.

Mayor Sunil Prabhu and BMC chief Sitaram Kunte appealed to citizens to make Mumbai green by planting more trees and not littering as this clogs drains and leads to water-logging. TNN
